Dear Hiring Manager,

I am reaching out to express my strong interest in the IT Technician role at Oromia Bank's Finfinnee Branch, as recently advertised. My academic background, including a Bachelor of Science in Computer Science from Jimma University, combined with my practical experience in the IT sector, positions me as a promising candidate for this opportunity.

During my five-month period volunteering at Jimma Town Municipality, I sharpened my abilities in key areas such as troubleshooting, system administration, and network management. My role was pivotal in maintaining the integrity and efficiency of our IT systems, where I was actively involved in implementing robust security protocols to protect our data assets. I also managed the procurement and installation of new IT hardware, ensuring meticulous documentation and reporting of all IT-related activities, which I approached with the utmost professionalism and a keen eye for detail.

Before this, I completed a valuable internship in Agaro Town, which allowed me to further refine my technical skills within an immersive IT environment. This formative experience solidified my practical approach to IT challenges and reaffirmed my dedication to the field.

What draws me to Oromia Bank is your esteemed reputation for utilizing cutting-edge technology to improve customer experiences and streamline operational processes. I am excited about the prospect of contributing my technical expertise, along with my strong problem-solving capabilities and effective communication skills, to your reputable financial institution.

Please find my resume attached for a more comprehensive overview of my qualifications. I am enthusiastic about the possibility of discussing in person how my background, skills, and passion for IT align with Oromia Bank's objectives. Thank you for considering my application. I am available for an interview at your earliest convenience and can be reached at +251-911-XXXX/ or bonsatola@gmail.com

Kind regards,

Bonsa Tola
